

## **How do I find a list of certifying bodies that have equivalence agreements with the NOP?**

The NOP has no equivalency agreements with any foreign government at this time. But NOP does have various recognition agreements with foreign governments. To view which countries NOP has an arrangement with, go to <http://www.ams.usda.gov/nop> and click on 'International Issues.' On that page you will need to click on 'Export Arrangements and Recognition Agreements' and choose a certification body.
